Cover Letter - Junior JavaScript Developer

My name is João Victor Vieira, and I'm a Full Stack Developer passionate about creating efficient and scalable web applications. I'm writing to express my interest in the Junior JavaScript Developer position.

Throughout my experience, I've worked with modern technologies such as React, Node.js, TypeScript, NestJS, and Next.js, developing both frontend and backend solutions. I've contributed to high-impact projects, including systems handling thousands of applications monthly and integrations with platforms like Kiwify. My background also includes experience with data analysis and predictive Machine Learning models, which strengthened my ability to build data-driven systems.

I'm highly motivated to continue growing as a developer in an international environment — learning from experienced teams and contributing to innovative, high-performance solutions. My goal is to bring value through clean, maintainable code and a collaborative mindset.

Thank you for considering my application. I'd love the opportunity to discuss how I can contribute to your development team.

Best regards,
João Victor Vieira
